

NAB 9000 Metal Parts Wash Concentrate

NAB 9000 Metal Parts Wash is a neutral pH metal cleaner and degreaser, which is designed to effectively remove dirt and oil on metal components in industrial settings. It helps remove contaminants and debris from metal work pieces without having to use harsh solvents. *NAB 9000 Metal Parts Wash* rinses freely to save water and time, and it can easily be used in the hard-to-clean places.

Where to Use NAB 9000 Metal Parts Wash:

- Auto Repair Shops
- Bio-Tech Industries
- General Manufacturing Sites
- Tool and Die Facilities
- Warehouses
- Workshops

How To Use NAB 9000 Metal Parts Wash:

- Aqueous-based, machine parts washing systems
- Hand sprayers
- Manually, scrubbing with a brush
- Power Washers

For the most effective cleaning results, use warm water (120°-160°F). Do not add bleach or any other cleaning chemicals.

NAB 9000 Metal Parts Wash has been considered to be non-hazardous as defined by OSHA 29 CFR 1910.1200. It contains no chemicals considered to be reportable under EPA SARA Title III Section 313. This formulation contains a rust inhibitor that prevents flash rusting for up to 49 hours.
