

NAB MARINE Battery Acid Cleaner & Neutralizer

Why It Is Important To Keep Your Boat Battery Clean:

Battery acid is a major health hazard according to Occupational Safety & Health Administration (OSHA) because of its highly corrosive characteristics. Dirt, oil and electrolytes hold a conductive surface charge, which has the potential to shock or burn. Under extreme conditions, a strong enough surface charge can build up heat and cause a battery to ignite or explode. It is also important to keep your boat's battery clean to maintain its designed performance level. Performance damage to the battery begins once dirt, oil or electrolytes have accumulated on a battery's surface. If there is a dirt build-up, a power trickle will result, passing the current through alternate modes. This will slowly exhaust the battery before the optimal length of charge is met. Oil and dirt will redevelop more quickly after maintenance if traces remain on a battery's surface. Establishing a routine maintenance program will assure that the battery's surface is free and clear of any battery acid, dirt or oil, helping to achieve optimal performance from the battery.

Why It Is A Smart Idea to Use NAB MARINE Battery Acid Cleaner & Neutralizer:

When you use **NAB MARINE Battery Acid Cleaner & Neutralizer**, you will notice a color change from red to yellow indicating that the battery acid has been neutralized. It also contains a surfactant that releases dirt, oil and corrosion, which can then be safely disposed of after your job is completed.

NAB MARINE Battery Acid Cleaner & Neutralizer is considered to be non-hazardous as defined by OSHA 29 CFR 1910.1200. It contains no chemicals considered to be reportable under EPA SARA Title III Section 313.

NAB MARINE Battery Acid Cleaner & Neutralizer Ordering Information

Product # MAR54032	1 Quart	Ready to Use
Product # MAR5432	4 x 32 Case (4 Quarts)	Ready to Use
Product # MAR5401	1 Gallon	Ready to Use
Product # MAR541	4 x 1 Case (4 Gallons)	Ready to Use
Product # MAR545	5 Gallon Pail	Ready to Use

30 and 55 gallon drums and 275 gallon totes are also available. Please call for pricing.

Place your order today and get your boat looking great for your next water adventure!

North American Bioindustries (NAB) is a manufacturer of environmentally safe industrial and marine cleaning products. NAB MARINE Battery Acid Cleaner & Neutralizer is proven to be highly effective and has passed rigorous standard testing required by industry standards.
